SAI PHAPALE

Associate Software Developer

☎8432737272 ✉saiphapale7272@gmail.com ⚲ Pune, India

LinkedIn GitHub

PROFESSIONAL SUMMARY

Associate Software Developer with hands-on experience in **Python backend development, PostgreSQL, AWS, GitLab**, and application deployment. Experienced in building backend APIs and web applications using **Python, Django, and FastAPI**, with additional experience in React and JavaScript. Worked on **AI-powered applications, cloud infrastructure, CI/CD, and Terraform-based solutions**, with a current focus on backend development and AWS deployment.

EDUCATION

M.Sc. Computer Science — P.V.G. College of Science, Pune | 2024 – 2026 | CGPA: 8.90

B.Sc. Computer Science — P.V.G. College of Science, Pune | 2020 – 2023 | CGPA: 9.00

TECHNICAL SKILLS

Programming: Python, C

Backend: Django, Django REST Framework, FastAPI

Frontend: HTML, CSS, JavaScript, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB

Cloud: AWS (EC2, S3, RDS, VPC, IAM, Route 53, CloudFormation, CloudWatch); Basic GCP & Azure

DevOps & Deployment: GitLab, Git, GitHub, Jenkins, Docker, Kubernetes

Infrastructure as Code: Terraform, Ansible

Monitoring: Prometheus, Grafana

AI/LLM: OpenAI, Groq, Claude, LLM-based applications, AI Agents

Operating Systems: Linux (Ubuntu, CentOS)

WORK EXPERIENCE

Associate Software Developer — ***Coditation Systems Pvt. Ltd.*** Jul 2026 – Present

- Work primarily on **Python backend development, PostgreSQL, AWS**, and application deployment.
- Manage development and deployment workflows using **GitLab, AWS**, and related DevOps tools.
- Contribute to backend APIs, database tasks, and frontend development when required.

Software Developer Intern — ***Coditation Systems Pvt. Ltd.*** Jan 2026 – Jun 2026

- Worked on Python backend and full-stack development, including APIs, databases, and deployment workflows.
- Contributed to **TerraSketch, DataBridge AI**, and a COBOL-to-Java modernization project.

- Worked with Git/GitLab, AWS, and DevOps practices in development and deployment activities.

On-Job Training (OJT) — *Tayan Solutions* Mar 2025 – May 2025

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Contributed to the **QuickPick** e-commerce project and used Git/GitHub for version control.

PROJECTS

TerraSketch — AI-Powered Terraform Generator

Python, FastAPI, React, Vite, Terraform, LLMs, PostgreSQL, Docker | github.com/saip-coditation/TerraSketch

- Developed an AI-powered platform that converts cloud architecture diagrams or text descriptions into **Terraform code for AWS, Azure, and GCP**.
- Implemented an **agentic workflow** for architecture understanding, planning, Terraform generation, validation, and review.
- Added infrastructure validation, security analysis, cost estimation, and architecture visualization features.

PVG Authentication & Enterprise Management System

React, Vite, FastAPI, PostgreSQL, SQLAlchemy, JWT | github.com/PhapaleSai/PVG_AUTH_Module_Repository

- Developed an authentication and authorization platform with **JWT-based authentication and RBAC**.
- Built the frontend with React/Vite and backend with FastAPI and PostgreSQL, including user, role, module, and permission management.

DataBridge AI — POC Chat Interface

Django, Django REST Framework, JavaScript, OpenAI, Stripe API, Zendesk API | github.com/saip-coditation/POC_chat_interface

- Developed an AI-powered platform for interacting with business data through natural-language queries, integrating **OpenAI, Stripe, and Zendesk APIs**.
- Implemented JWT authentication, REST APIs, platform connections, query history, and secure handling of stored API credentials.

AI Friend

Next.js, React, TypeScript, Groq, Kokoro JS, Tailwind CSS | github.com/PhapaleSai/AI_friend_project

- Developed an AI companion application with multiple AI personalities and conversational interactions, integrating **Groq and Kokoro JS** for AI and voice capabilities.

Dhanapala — Expense Tracker

Kotlin, Android, Gradle | github.com/PhapaleSai/dhanapala-expense-tracker

- Developed an Android application for tracking and managing personal expenses using Kotlin and Android development tools.

E-Commerce Website — QuickPick

HTML, CSS, Bootstrap, JavaScript

- Developed a responsive e-commerce website with product browsing, cart management, and checkout functionality.
